SUMMARY:

Full Stack Engineer with 12+ years of experience building high-performance web and mobile applications. Skilled in modern frontend frameworks and backend technologies. Strong focus on clean architecture, scalability, and user experience. Proven track record in leading feature development, mentoring teams, and delivering solutions in fast-paced, cross-functional environments.

SKILLS:

• Frontend Frameworks & Libraries	ReactJS, React Native, Vue.js, Angular 12, Ember.js, TypeScript, JavaScript, HTML5, CSS3, Bootstrap5, Tailwind CSS, SAP UI5, FIORI, jQuery, JQX Widget, RN Elements, RN Paper, Axios, AJAX, i18next
• State Management	Redux, React Context API, Vuex, Apollo Client
• Backend & API Development	Node.js, Express.js, RESTful APIs, GraphQL, MongoDB, MS-SQL, Java, Spring (Boot&Cloud), Ruby on Rails
• Cloud & DevOps	AWS (EC2, S3), Docker, Docker Compose, Kubernetes
• Testing	Jest (TDD), Cypress (E2E), Cucumber (BDD), QUnit
• Dev Tools & Debugging	VSCode, React Native Debugger, Xcode, Android Studio, Postman, Swagger, Advanced REST Client
• CI/CD & Version Control	Git, GitHub, GitLab, Jenkins, CircleCI, Tortoise SVN
• Design, Collaboration & Monitoring Tools	Figma, Storybook, Miro, Confluence, JIRA, Draw.io, Sentry, BrowserStack, Atomic Design System, App Store Connect (TestFlight), Google Play Console
• Agile Methodologies	SAFe 5, Agile (Scrum), Kanban
• AI Tools	ChatGPT, Claude AI, Perplexity
• Domains Worked In	CRM, Healthcare, Insurance, Networking

CERTIFICATIONS:

1. **Advanced React** – Meta (2025)
2. **Redux** – SCRIMBA (2025)
3. **NodeJS & Vue JS** – Udemy (2020)

EXPERIENCE:

Full Stack Engineer | CLARK GmbH

07/2022 – Current | Frankfurt am Main, Germany

Project #1: Clark DE Insurance app

- Improved application performance by 15% by optimizing the UI and Backend codebase.
- Owned several UI modules and implemented end-to-end functionalities independently.
- Created Rake tasks and performed multiple data migrations to update over 2 million product records.
- Collaborated closely with stakeholders to plan and deliver major feature releases and resolved critical production issues.
- Performed the sprint owner duties and actively participated in the breakdown of user stories, and the effort estimations.

Project #2: International (DE/FR/IT) Swiss App (IOS and Android) and Core library development

- It's a Swiss-focused tax and insurance app that allows users to upload tax documents from the last four years. Implemented custom wrappers to provide enhancements to the React Native Paper components.
- Collaborated with product owner, designers, and backend teams to implement new features and optimize the user interface.
- Took the ownership of end-to-end app release processes, including publishing to app stores.

Senior Software Engineer | INFOBLOX

03/2021 – 05/2022 | Bangalore, India

Project #1: Networking / SAFe Pilot and Athena UI App-SaaS

- Proposed and led the restructuring of a monolithic application into Micro Frontends (uFEs).
- Created new uFE from scratch and worked with Devops team for the deployment configurations.
- Implemented uFE schematics and web components by using Vanilla.js.

Senior UI Developer | HARMAN

04/2016 – 03/2021 | Bangalore, India

Project #1: Ventiv iVOS (Integrity Value Oak System)

- Refactored legacy application from scratch and resulting in 2x performance improvement along with the enhanced user experience.
- Worked on several user stories such as claim administration, policies, insurers, payments and different liability claims.
- Led a team of 3 UI engineers and provided mentorship to junior developers.

Senior UI Developer | ARTECH INFO SYSTEMS

05/2015 – 03/2016 | Bangalore, India

Project #1: Avaya SDN Healthcare App

- Developed the admin platform for web and tablet to manage device activation and inventory of healthcare ONA (Other Non-Automated) devices. Implemented client-side validation for device profiles and firewall modules and contributed to the development of the notification and license management features.
- Designed UML diagrams to illustrate use-cases and sequence flows, clearly mapping the system interactions and user journey scenarios.

Software Engineer | AVVAS INFOTECH

07/2013 – 03/2015 | Bangalore, India

Project #1: Solutioning and Deployment Center (S & DC)

- Developed UI by using SAP UI5 web framework and worked on different accessibility issues.
- Implemented various features based on Model, View and Controller (MVC).

EDUCATION:

2006 – 2010 | Hyderabad, India

- Bachelor Of Technology Electronics and Communication Engineering

AWARDS:

- 1st runner up (Hackathon) Customer Session Replay Feature
- Bravo Award In recognition of the successful launch(es) of the Avaya project

LANGUAGES:

- Languages GERMAN (A2), ENGLISH(Fluent), TELUGU (Native)
