Dear Hiring Manager,

I'm excited to apply for the Frontend/Backend Developer position at your organization.

Throughout my career, I've worked across both front-end and backend development, leading small teams and contributing to large-scale, production-grade projects.

My experience spans the entire software lifecycle, from gathering requirements and estimating tasks to implementing features and collaborating closely with product and design teams. Moderating a Scrum team and managing releases have further strengthened my ability to deliver projects efficiently and on time.

On the frontend, I've built user-centric, scalable interfaces using React.js, Angular, and Vue.js, supported by modern tooling and strong attention to performance. I've implemented and secured REST and GraphQL APIs with JWT authentication and set up CI/CD pipelines using GitHub Actions for seamless deployments.

Beyond my professional experience, I actively contribute to open source and experiment with new technologies.

- Published an open-source **npm package**([@satheeshpolu/utils-package](https://www.npmjs.com/package/@satheeshpolu/utils-package)), that simplifies common frontend utilities and works seamlessly with any JavaScript or TypeScript framework, including latest **Angular, React, and Vue**.
Link: <https://www.npmjs.com/package/@satheeshpolu/utils-package>
- Built **Shop Easy**, a modern e-commerce web app using **Vite, React (19+), TypeScript**, and **Chakra UI**, delivering a fast, scalable, and seamless shopping experience deployed on **Vercel**.
Link: <https://satheeshpolu.vercel.app/>
- Built a suite of modern apps (**News, Parking, Live Trading**) using **Next.js (15+), TypeScript**, and **Shadcn UI** delivering fast, scalable, and seamless user experiences deployed on **Vercel**.
Link: <https://nextjs-shadcn-delta.vercel.app/parking>

I thrive in multicultural, hybrid teams and enjoy solving complex challenges that deliver real impact. I would love the opportunity to bring my skills and experience to your team.

Thank you for your time.

Best regards,

Satheesh Polu
